

Date: 11/08/2021

Reference: DCRP/2021/036

**To: Electricity Metering Panels' Manufacturers & Suppliers**

After Compliments,

**Subject: Electricity Metering Panels Approval**

With reference to:

- DCRP Meeting Q3/2021.
- OES4: "Electrical Installations in Buildings" Third Edition
- OES 7: "Consumer Service Unit".

DCRP would like to inform that electricity metering panels shall comply with requirements of above-mentioned Omani Standards (copy of the standards are available in APSR Website).

Therefore, all electricity metering panels' manufacturers & suppliers shall response to this circular and take necessary action to design, manufacture & conduct all type tests according to OES-4 third edition and OES-7 requirements & relative IEC standards.

Manufacturers & suppliers shall submit complete application file to DCRP office and complete registration & approval procedures within six months.

**Taking into consideration that after March 2022, only DCRP Approved metering panels are going to be accepted for installation.**

Yours faithfully,

**Salim Masoud Al Kabi**

**DCRP Chairman**
